PROFILE

2D and User Interface artist with about 10 years experience in artwork production for mobile and social network games. I specialize in user interfaces, icon and application design. As for my competency, I have strong knowledge of Adobe Creative Suite, 2D digital drawing skills with use of Photoshop, Illustrator and Flash. Experienced in all phases of UI development, visual and technical, starting from concept up to the final design.

Being a flexible artist, I can work in a team or figure out solutions individually as well. Self-motivated and organized, able to work within established style and tight deadlines. Passionate about iconography and vector graphics.
